JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*Report from Veracruz—Sanitary conditions good.*

Acting Assistant Surgeon Jacobs reports, May 17:

Week ended May 16. Sanitary condition of Veracruz and surrounding country is good.

By his request I accompanied the consul on a visit to the Federal prison, San Juan de Ulna, situated on an island in the bay, and found the sanitary condition good, there being little sickness among the prisoners.

*Yellow fever on bark Lembit at Laguna de Terminos.*

Acting Assistant Surgeon Jacobs telegraphs, under dates of May 30 and June 2, that the Mexican authorities report 2 deaths from yellow fever at Laguna de Terminos, on the Russian bark *Lembit*, bound from Tucacas, Venezuela, to Europe, with a cargo of logwood. The vessel was quarantined at Lagunas.
